SAVED FROM DEATH.

The Cotton Mills Big Mule Rescued From a Dangerous Place.

The big mule belonging to the Cotton Mills—the best natured and most intelligent mule that ever studied all night how to kick a man's left ear off the next morning—a few days or weeks ago fell into a dark and deep abyss.

It was some time before the animal was located.

And then it took twenty-four good stout men, armed and equipped with good stout ropes and a good supply of good stout burials, to rescue the mule from the deep and dark abyss.

And when the rescue was complete her muleship voted thanks with both ears at once, and there was enough gladness to go around the square.

THE "BOSS" FAIR.

Closing Day an Unbounded Success in Every Detail.

Best sample of Wheat, \$2; D. C. Dillinger, Ohio.

Best sample of Rye, \$2; T. J. Winter.

Best sample of Oats, \$2; D. C. Dillinger, Ohio.

In the afternoon there was a splendid balloon ascension, and the display of stock was, according to those who had been at each place, far superior to what was seen at either Ripley, Germantown or Bowling.

In the evening there was a motley crowd,—"ladies" noted for their perfect social freedom, cigarette dudes who might be bunched as so much asparagus and be devilish expensive at two bunches for a nickel, a lot of back numbers without six bits to the dozen, with here and there a reputable citizen—not enough of the latter, however, to leaven the loafers.

As "it takes all sorts of people to make a world," so it takes all sorts of attractions to make a successful fair; but THE LEDGER suggests that for the year 1900 Maysville at once sets about the task of giving a real genuine sure-enough fair, with the Midway features and all gambling devices eliminated.

The great success of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the treatment of bowel complaints has made it standard over the greater part of the civilized world. For sale by J. James Wood & Son Druggists.

VILE PLANS LAID BARE.

What the Machine Men Propose to Do in November.

THIRTEEN POINTS OF FRAUD.

Intimidation, Bribery, Theft and the Like to Be Employed.

REPEATERS WILL BE ON HAND.

Brown and Taylor Votes to Be Juggled Or Destroyed Outright—Goebel Law Will Be Used to Full Extent of Its Infamy to Thwart the People's Will.

Goebel henchmen and negroes are to run the coming election in Kentucky. Upon theft, intimidation and frauds generally hangs the only hope of the Goebel men in forcing the Kenton man in the governor's chair.

The Goebel election law will be used to the full extent of its infamy to thwart the will of the people of this commonwealth.

It is proposed by the Goebel machine to make a practically clean sweep of the election officers in the state and make Goebel returning boards of them. The law makes no call for political division in the election commissioners for the counties. They can be all of one party, and in this election they will be all Goebel men. However, according to law, the officers of the election at the polls must be equally divided between the main parties—the Democratic and the Republican.

The Goebel election commissioners of the various counties will appoint as officers representing the Democrats Goebel men, and as officers representing the Republicans negroes who have secretly vowed allegiance to Goebel. These men will do enough corrupt work to leave the Goebel counting in process of the commissioners an easy thing.

Plans in Detail.

The Goebel machine managers have adopted plans to govern the three state election commissioners. There are 13 items in these plans as follows:

First—Aggressive and unscrupulous Democratic election officers.

Second—Timid, ignorant, disaffected or venal Republican election officers.

Third—Negro Republican election officers who are for Goebel.

Fourth—Irregularities, so that county boards will throw out Republican precincts; (a) because of some technical violation of the law, such as opening the polls too early or keeping them open too late; (b) by stuffing the ballot box, so that more ballots will be found in the box than there are votes cast; (c) failure of officers to properly certify returns, etc.

Fifth—The Goebel vote will be massed at hour of opening polls in precincts largely Republican, so as to vote first. The vote will be taken very slowly. To accomplish this every scheme for delay will be resorted to, so that a large portion of the anti-Goebel vote will not be cast by the time the polls close, though the voters may have stood in line for hours.

Sixth—All voters not for Goebel will be challenged freely, and, where possible, either rejected or by threats of arrest or suggested penalties the embarrassed voters, many of them, will voluntarily withdraw and not vote, rather than risk getting into trouble. This also aids in the plan of delay already mentioned.

Seventh—Mutilation of ballots given to ignorant voters, so that such ballots may be rejected in the count. This is to be done by a pencil mark, stamp or blot of some kind, or by having the ballot torn.

Eighth—Run out of ballots in Republican or Brown precincts. This will be done by having Democrats to spoil their first ballots, and by election officers "accidentally" spoiling ballots before voters receive them. This assists, too, in the plan of delay.

Schemes For Repeating.

Ninth—Repeating, by sending voters from precinct to precinct in the country, and in towns where voters are registered, by voting under names of "straw," such as "George Motook," "Abraham Isott," that have been fraudulently registered, and under names of those voters who have not voted or who are away from town; and, should these voters come to vote, they will be rejected because the books will show that they have already "voted."

Tenth—Shifting ballots, by pocketing Republican and Brown ballots and substituting Goebel ballots previously stamped and prepared for the purpose.

Eleventh—Keeping the negro Republican vote away from the polls by the use of money, whisky and intimidation.

Twelfth—Contesting and throwing out every Brown or Taylor ballot about which any question can be

raised, and appeals to county commission will be decided in favor of the Goebellites.

Thirteenth—County commissioners, in recapitulating the precinct votes, will "correct errors," pass on contested ballots and throw out irregular precincts until the required "balance" is obtained.

The Goebel men believe that by using these 13 schemes they can count Goebel and his ticket in.—Louisville Dispatch, Sept. 12.

Catarrrh Cannot be Cured

with Local Applications, as they cannot reach the seat of the disease. Catarrrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials, free.

A Word to Mothers.

Mothers of children affected with croup or a severe cold need not hesitate to administer Chamberlain's Cough Remedy. It contains no opiate nor narcotic in any form and may be given as confidently to the babe as to an adult. The great success that has attended its use in the treatment of colds and croup has won for it the approval and praise it has received throughout the United States and in many foreign lands. For sale by J. James Wood & Son, Druggists.

No Guess Work.

When a person comes here for Eye Glasses we don't take up the first pair of ready-made ones we find and say, "Here are the very ones that will suit your eyes." That would be guess work. Instead we give the eyes a careful examination, finding out just what lenses are needed, and then making them. No charge for examination.

Prompt attention to settlement of estates and adjustment of accounts.

WITH THE PLAIDS

One of the season's fads is to have a skirt of plaid—the waist any sort one's fancy dictates. If you have the criss-cross craze you can get speedy relief here. We have an unequalled "gathering of the clans" to show you. Brand new in style and colorings. Our handsome Zibiline Plaids, the kind best dressers want, were imported by us from France. You will not find them duplicated here. Of course the fashion magazines have told you all about Zibiline—that it is a camel's hair weave which adds indescribable beauty to a fabric. It tones a plaid and totally destroys any garish effect. The prices vary from 75c. to \$2.50. 45 inches wide—four yards make a skirt. If you want less expensive plaid you can choose from 50c. down to 25c. Zibilines come only in the higher priced goods, and they will fully repay the investment by style, quality and elegance.

D. HUNT & SON.

Fresh Oysters at Hoper's.
